WORKING EXPERIENCE

Santa Cruz de Tenerife, España June 2024 - Present

Software Engineer | Redborder NDR

- Develop of a real-time web cybersecurity platform using <u>Ruby</u>, <u>Ruby on Rails</u>, and <u>Logstash</u>.
- Automate a <u>Linux</u> infrastructure and deployments with <u>Chef Server</u>, as well as the implementation of data-driven capabilities using <u>Apache Druid</u> for advanced threat detection.
- Elaboration of reports on <u>network traffic data</u> and detected threat <u>incidents</u>.

Full Stack Developer (Erasmus) | VivaDrive

Warsaw, Polond March 2024 - May 2024

- Creation of a city and country recommendation website from scratch using <u>React JS</u> for the user interface, <u>Tailwind CSS</u> for design, and <u>Django Rest Framework (Python)</u> for the backend.
- Responsible for implementing recommendations from point A to B using React Leaflet. The system was based on parameters such as geographical coordinates and electric vehicle battery percentage.
- Improvements in SEO, performance, and accessibility on <u>vivadrive.io</u>, as well as resolving visual issues and fixing bugs.

MAIN PROJECTS

WhatsApp AI Assistant

GitHub | **Demonstration**

• Bot that integrates GPT capabilities with WhatsApp, enabling features like text-to-speech and image generation, using <u>React.js</u> for the frontend and <u>Express.js</u> for the backend.

Canarias Skills 2024 | 1st place

GitHub

- Representative of CIFP Cesar Manrique in the Web Development module for the Canarias Skills 2024.
- Creation of a website in 7 hours, focusing on accessibility, scalability, and implementation with <u>Angular</u> for the frontend and <u>ASP .NET Core</u> for the backend.
